washington, Jan. 20.—While such asturances as have come from representive Pacific coast men regarding the improbability of any legislation in California adverse to the Japanese have indoubtedly done much to relieve the apprehension that exists in administration of the accused and he will return to that city tomorrow afternoon to meet the charge. He is temporarily in charge of the arresting deputy sheriff but is at his home.

To a representative of the Associated Press under Gordon made this brief apprehension that exists in administration circles, it is a fact that deepest concern exists as to the future. Nothing that has happened recently in Congress or elsewhere has so absorbed the attention of the president and of Secy. Root as the threatened anti-Japanese legislation in California.

It was impossible for the president in

It was impossible for the president in his letter to Gov. Gillett to tell all of the reasons that influenced him in making his unprecedented protest against such action by the California legislature. He did not develop the fact that under the agreement reached two years between Appendix and Large per legislature. etween America and Japan, not had Japanese immigration into had Japanese immigration into erica largely decreased, but also there had been an actual reduction he number of Japanese residents in country. Greve L. Johnson, as father of the rectors' bill, opposed its postpone-ent in an impassioned speech, declar-ing that the request of the president delay meant nothing to the legislaransmit to the assembly a special ressage, and no such request was be-bre the house. He said that the Japa-ese were increasing in numbers instead of decreasing, as stated by President Roosevelt, and there was urgent mand all over the state for action at

Drew, who introduced the land bill, said that he was as anxious as any to have action on the bill, but he favored a delay of one week. On rollcall the motion was carried, 43 to 34. Johnson's was then put over without rollcall the same date.

HE LIKES BEING BARBECUED

Augusta, Ga., Jan. 20.-Richroom county, Georgia, today modestly proclaimed William H. Tuft as its ownthat he was a resident of August when the presidential electors in the various states declared him to be th president-elect; that as such he was a Georgian by birth, and had lived where he was born all of his presidential life.

Thousands of Augustans clinched this claim with a shout of approval as Maj. J. C. Black sald many other compilmentary things about Mr. Taft in presenting him to the great mass meet ng that had assembled around the

south Carolina.

It was after 1 o'clock before Mr. Taft was introduced to the guests of the banquet. He devoted some time to the discussion of the Panama canal and the object of his coming visit to the isthmus. He did this, he said, because there seemed to be a disposition in some quarters to misunderstand his visit. Congress, he said had after due. and careful consideration settled the type of the canai that should be built. The criticism which was made at the time of this settlement and which was made in the furtherance of the level plan, had since been repeated.

level plan, had since been repeated.

"The type of the canal," he continued, "is therefore open to discussion only to the extent that if it shall be shown that the present lock type is a failure, we shall change to something else. There is neither opportunity ner right to open that question again unless something has developed justifying that action. But in carrying out this great work it is proper that we should go there with competent engineers to see that the conditions are the same and justify the same conclusions that was reached when the question was last settled, and that is what we are going there fore now."

PLATT DISCLAIMS RESPONSIBILITY FOR DEBTS

New York, Jan. 21.—Through his counsel before the appellate division of the supreme court, Senator Thomas C. Platt yesterday disclaimed all responsibility for personal debts contracted by his wife, Mrs. Lillian Janeway Platt, from whom he separated in 1906, and sought to have reversed a judgment of the lower courts which condemned him to pay to an assignee \$2.471, as part of such debts.

Dr. A. T. Bristow Says Many Physicians Ready to Testify to Whatever Lawyers Desire.

EFFECT ON SOCIETY VERY BAD

No Man Can be Sane, Then Insane, Then Sane Again With Swiftness To Which Some Experts Testify.

New York, Jan. 21 .- In an address sefore the Medico-Legal society at its annual dinner last night, Dr. Algernon r. Bristow, of Brooklyn, attacked expert medical testimony which has beome so common at murder trials in this country. He declared that the eadiness of many physicians to testify o whatever lawyers desired has "refuced society to a state of anarchy," As a remedy, he suggests that the statu appoint a board or commission of allenists who may be picked by judges when needed at trials but who shall receive no pay from the persons thyolyed. During his address, in which

he was supported by Clark Bell, retir-ing president of the society, Dr. Bris-tow said:
"No man can be same, then insane and then same again with the rapidity to which these experts testify. It is merely a question of how much money is paid for the testimony. This is prac-tically worthless, but out of it has come the excuse for an unwritten law.
"A brainstorm will account for any sort of crime. This was demonstrated in the Thaw trial and the Hains trial. We have come to a point where the courts are recognizing a certain sort of courts are recognizing as a certain sort of the courts are recognizing as a certain sort of the courts are recognizing as a certain sort of the courts are recognizing as a certain sort of the courts are recognized as a certain sort of the certain sort o

courts are recognizing a certain sort of crime as legitimate and it morely means that murder is being estimated. This is anarchy. What is true in one case is true in another, and if there is money chough to secure expert testimony any one can excuse his crime on the plea of a brainstorm."

Clark Bell said: "Expert medical testimony has failen so low and especially so in the Thaw trial as to put the profession to the blush. Medical testimony has been practically annihilated, a fact which is a reflection upon both the bench and the bar. S C REMOVES THE CAUSE

No remedy that does not entirely remove the cause of Catarrh from the blood will ever make a permanent cure of the trouble. Just as long as the circulation remains contaminated with the impurities and catarrhal matters

which produce the trouble, the mucous membranes or inner linings of the

body will be kept in a state of irritation and disease. Sprays, lotions and other local applications will sometimes temporarily relieve the tight, full feeling in the head, buzzing noises in the ears, uncomfortable, stuffy feeling of the nostrils, and help to loosen the mucus in the throat; but Catarrh is a

constitutional blood disorder and until it has been entirely driven from the

system there can be no permanent cure. S. S. S. cures Catarrh by removing the cause from the blood. It attacks the disease at its head and by thoroughly purifying and cleansing the circulation, and ridding it of every particle of impurity, and at the same time enriching the blood, allows the
